**Rehab Center: Orchid Recovery Center for Women**

**Description: The Orchid Recovery Center For Women is unique in its ability to help women heal from drug addiction and alcoholism with love and dignity. Our drug treatment program focuses on clients maintaining long-term abstinence from mood-altering substances through holistic and 12-step based interventions, and on teaching new methods to cope with life issues. Highly qualified, experienced licensed primary therapists are dedicated to guiding clients through the early recovery process while treating them with love, dignity and respect. By providing a broad spectrum of services that treat the mind, body and spirit, Orchid Recovery Center for Women has emerged as the industry leader in the specialized treatment of women suffering from the diseases of drug addiction and alcoholism.<br>Orchid is intended as a center for holistic women's healing. Here women begin a healing process that builds on an intense sense of community, with mutuality and compassion as vital elements of therapeutic enlightenment. Recovery comes more fully and easily to women who learn to rely on each other, an organizing principle Dr. Dodge refers to as "relational growth". At Orchid, we teach women to listen to voices that were previously dismissed, misunderstood, or simply ignored.<br>Drawing on an array of services, women usher in a new life at Orchid.**
