Sierra Tucson is internationally known and respected for its compassionate care and clinical excellence. Since 1983, Sierra Tucson has been helping individuals and families rebuild their lives by treating the whole person. Individualized treatment incorporates medical and psychiatric services, Twelve-Step philosophy, and a full range of traditional, experiential, and integrative therapies. Sierra Tucson's beautiful, serene 160-acre campus provides a natural healing environment and the highest level of confidentiality.
The Family Program is a hallmark of Sierra Tucson's successful treatment. A six-day Family Program with couple's therapy is included with each person's treatment to enhance long-term recovery and extend healing to the family.
