

Listing ID: 26

Rehab Center: Waismann Institute

**Description: The Waismann Institute - Advanced Treatment of Opiate Dependency is considered the leader in the field of opiate detoxification worldwide, with unsurpassed experience based on thousands of successful procedures.
The Waismann Method is performed under anesthesia in an Intensive Care Unit by Certified Board Anesthesiologists and Pain Specialists in a three hour procedure. Patients are inpatient for 3 to 6 days, based on their medical and dependency history, for an extensive pre-examination and after procedure monitoring.
The Waismann Institute is recognized worldwide for its unparalleled safety, extensive knowledge, unsurpassed experience and effectiveness.
On both a professional and personal level, commitment to respect, dignity, confidentiality, and compassion are tantamount at the Waismann Institute.**
